

## Jewelry Cart

Ideal for the Retail Jeweler. The Jewelry Cart presents the practical solution for the storage and transport of merchandise from the showcase to the safe or vault. By handling the merchandise only once, the store opening and closing procedure is streamlined.

The jewelry cart allows the user to transport jewelry with ease. The cart sits on a dolly which allows the user to move it directly into the safe quickly, saving time and damage to the merchandise.

Manufactured from light gauge steel, the jewellery cart has 10 slots for storage and mounted on durable casters for ease of transport.

### Features

- No ramp required to move cart into safe
- Move merchandise to the safe in record time
- Reduce damage to merchandise
- Easy to maneuver
- Plastic trays included
